

## Setting up the IR for the WOLFPACK™ 4x4 (4x4x2) HDMI Matrix Switcher over CAT5

IR's are labeled

IR IN  
IR OUT

This is the most common way to setup the IR with this setup you would be able to control the source devices from the TV's, projector or displays

### Source Side

1. Unpack all IR cables
2. Locate IR on source devices
3. Attach IR OUT cables to IR OUTPUT to source devices

#### Out to Source Devices

### TV Side

1. Connect CATx cable to Receiver
2. Connect HDMI cable from receiver to display
3. Connect IR IN to receiver and place in line of site of remote

#### IR IN to IR IN
