

Tabletop Mount for Velocity Control System VTP-1000VL Touch Panels

AT-VTP-VTM

The Atlona AT-VTP-VTM is a tabletop mount for the AT-VTP-1000VL-BL and AT-VTP-1000VL-WH touch panels in the Atlona Velocity Control System. It allows convenient placement of a touch panel on a meeting table, lectern, credenza, or anywhere else appropriate for a freestanding AV control panel. The VTP-VTM features a visually appealing profile that accents the styling of the VTP-1000VL-BL or VTP-1000VL-WH. The table mount supports adjustments to both height and touch panel angle. The touch panel is installed on the mount using its standard VESA 75 hole pattern. The VTP-TMK also can be secured onto the surface for a permanent, fixed installation.

Package Contents

1 x AT-VTP-1000VL
4 x Mounting screws

1 x Installation Guide

Mounting

- 1 Place the stand on the table/desk.
- 2 Align the screw holes on the back of the wall plate with the holes on the adjustable stand.
- 3 Use the included mounting screws and thread them through the back of the stand into the wall plate.

NOTE: Tighten the screws by hand. To avoid damage to the touch panel, do not overtighten.
