

## 4" Desktop Touch/Control Panel with Beamforming Dante Microphone, Speaker, & 4K AV over IP

The RXT-4DV is a 4" desktop touch panel with a ReAX™ JavaScript based control system. Ideal for conference rooms, educational facilities, hospitality, digital signage and more. The RXT-4DV has a beautiful 720 x 720 1:1 aspect ratio touch screen with 160° viewing. It is also designed to work as a Dante™ beam forming microphone with advanced hardware for feedback suppression, auto gain, & noise cancelation. The built in 4-Watt speaker allows the creation of a speaker array when multiple units are used.

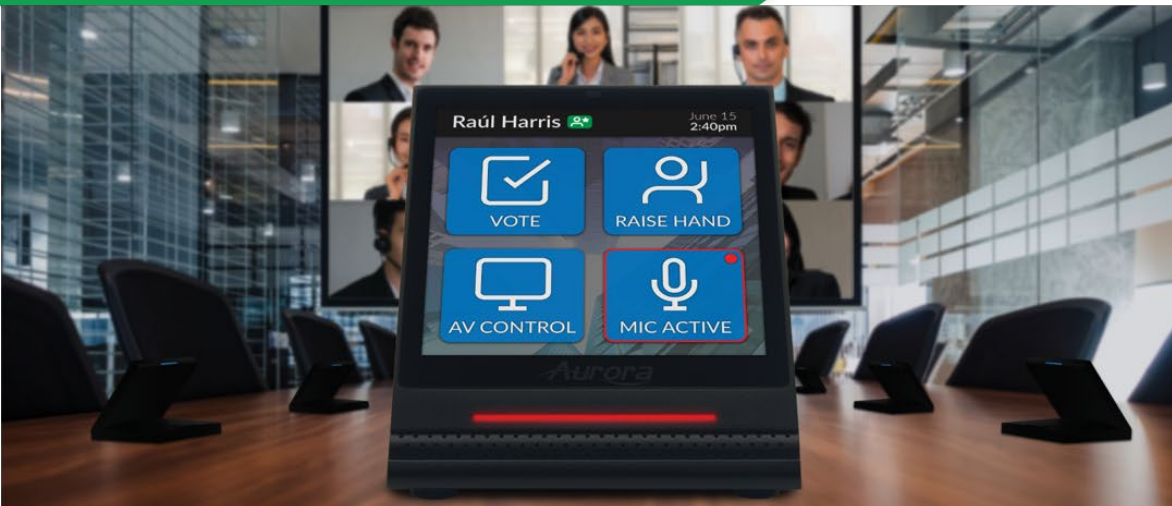

To further the capability of this all-in-one unit is the integrated VPX 1Gbps 4k60 AV over IP transmitter. On the side is a USB-C and mini-HDMI input connector. On the rear is a USB-C power pass-through connector which can move 100 watts to the side input connector for laptop charging. There is also a USB-C display output connector on the rear for secondary screen usage.

The 2D/3D graphics engine with 4K H.264 streaming decoder provides a powerful solution for complex graphics and video, ensuring an enhanced user experience.

To further enhance the experience, the RXT-4DV has a proximity sensor, ambient light sensor & internal web server to allow control from remote devices like cell phones and computers.

The RXT-4DV is a powerful 'all-in-one' solution for your presentation and automation needs.
