

MTX3-88-PR-PRO Quick Start Guide

This guide helps you install and use your MTX3-88-PR-PRO for the first time.

Go to <u>www.kramerav.com/downloads/MTX3-88-PR-PRO</u> to download the latest user manual and check if firmware upgrades are available.

Step 1: Check what's in the box

- ◎ MTX3-88-PR-PRO 8x8 All-in-one Matrix

- ✓ 2 Fuses

Step 2: Get to know your MTX3-88-PR-PRO

#	Feature	Function		
1	LED (behind the Kamer logo)	LED Device & Networking Status	Indicates	Screen Displayed Text (12)
		Dark	Power Off	
		Lights red	Powering On	Restart
			Power On	Active
			FW background download	Firmware download
			No IP address acquired	No active IP address
		Lights white	A network has been detected and has a valid IP address	IP address acquired
			A device identification command was sent (Flag me)	Flag me is activated
		Flashes white	Standby	Power-save stand-by

MTX3-88-PR-PRO Quick Start Manufacturer: Kramer Israel 2 Negev St. Airport City 7019900 +972 (0)73-265-0200 info il@kramerav.com

#	Feature			Function		
25	USB DEVICE	Group 1	USB 3.2 Type A Ports (1&2)	Connect to USB devices using type A connector.		
			USB 3.2 Type-C Port (3)	Connect to USB devices using type C connector.		
		Group 2	USB 3.2 Type A Ports (1&2)	Connect to USB devices using type A connector.		
			USB 3.2 Type-C Port (3)	Connect to USB devices using type C connector.		
26	LAN RJ-45 Con	nector (1 to	4)	Connect to the LAN. LAN 1 is designated for device management and control. Other LAN ports are for all other IP services.		
(27)	Speaker Out			Outputs four selected audio signals in four channels.		
				 For Lo-Z: connect stereo output to Lo-Z speakers: L+ and L- to the left speaker; R+R- to the right speaker. 		
				 For Hi-Z (70V or 100V): connect Hi-Z and COM to mono Hi-Z speakers. 		
28	Mains Power Sv	vitch		Switch to turn the device On or Off.		
29	AC Socket (Mai	ns power)		Connect to AC power		
(30)	RESET Button			Press to reboot or reset device to factory default.		
				• To reboot the device, press and hold for 5 seconds.		
				 To reset to factory default settings, press and hold continuously during the power-up cycle. 		
31	FUSE (Mains po	ower)		Fuse for protecting the device.		
32	GND			Connect to grounding wire (optional).		

Step 3: Mount MTX3-88-PR-PRO

To rack mount the machine, attach both rack ears (by removing the screws from each side of the machine and replacing those screws through the rack ears) or place the machine on a table.

- Ensure that the environment (e.g., maximum ambient temperature & air flow) is compatible for the device.
 Avoid uneven mechanical loading.
 - Avoid uneven mechanical loading.
 Appropriate consideration of equipment nameplate ratings should be used for avoiding overloading of the circuits.
- should be used for avoiding overloading of the circuits.
 Reliable earthing of rack-mounted equipment should be maintained
- maintained.

Step 4: Connect inputs and outputs

Always switch OFF the power on each device before connecting it to your MTX3-88-PR-PRO.

Wiring the RJ-45 Connectors

Step 5: Operate MTX3-88-PR-PRO

Operate MTX3-88-PR-PRO via:

- Front panel buttons.
- Remotely, by IP or RS-232 serial commands transmitted by a touch screen system, PC, or other serial controller connected to RS-232 port 1.
- Device web pages via the IP client connection.

RS-232 Control / Protocol 3000					
Baud Rate:	115,200	Parity:	None		
Data Bits:	8	Command Format:	ASCII		
Stop Bits:	1				
Example: (flash LEDs on the front	panel for 60 seconds): #	IDV <cr></cr>			
Default IP Parameters – DHCP	ON				
 Fallback IP Address: If 192.168.1.39 is already in use, 192.168.1.40 is assigned. If both default fallback IPs are in use, then an available IP address will be assigned randomly. 	192.168.1.39 (1 st default fallback IP) 192.168.1.40 (2nd default fallback IP)	UDP Port #:	50000		
Subnet mask:	255.255.0.0	TCP Port #:	5000		
Gateway:	192.168.0.1	User/Password	Admin/Admin		
Factory Reset					
Protocol 3000:	 "#FACTORY" command. After receiving "FACTORY OK" perform one of the following to restart the device and complete the procedure: Power cycle Send command "#RESET" 				
Web Pages: In the Settings page, click Factory Reset.					

Step 6: Connect Power

Connect the power cord to MTX3-88-PR-PRO and plug it into the mains electricity.

Safety Instructions (See www.kramerav.com for updated safety information)

• For pr

- For products with relay terminals and GPI\O ports, please refer to the permitted rating for an external connection, located next to the terminal or in the User Manual.
- There are no operator serviceable parts inside the unit.
- Warning:
- Use only the power cord that is supplied with the unit.
- Disconnect the power and unplug the unit from the wall before installing.
- Do not open the unit. High voltages can cause electrical shock! Servicing by qualified personnel only.
- To ensure continuous risk protection, replace fuses only according to the rating specified on the product label which located on the bottom of the unit.

Switch an input to an output

Press an output button followed by an input button to switch the selected input to the selected output.

Store a switching setting

- 1. Set the matrix to the desired operation preset configuration.
- 2. Press STORE. The STORE button lights.
- 3. Press an output button (1 to 8).

The current status (routing, audio and video settings, USB status and more) are saved in the memory denoted by the OUT button number.

Recall a switching setting

- 1. Press **RECALL**. The RECALL button lights.
- 2. Press an output selection button (1 to 8) to select the desired operation preset configuration.

The preset saved in the memory denoted by the OUT button number is recalled.
