Controller 3

● **180 Degree images rotations setup:**

Sometimes, user prefer to flipped 180 degree of upper TVs (1. & 2.) Or monitors get the thinner bezel gap for better viewing images as the picture “C”, meanwhile, the image of the upper TVs (1. & 2.) would be the same as picture “E” with viewing problem, and it needs to rotate 180 degree to became the right viewing image.

One image in the 4 televisions / LED TV

C.

Take the TV1 settings for example, press the “菜单” menu on the remote controller, the “SPLIT” menu display on screen, move to “HDMI_1 SET 1” and enter the “ID NUM” and move to “Mirror mode off” as picture D-1, switchover to “Mirror mode on” as picture D-2, finally, the right image would display, so does the TV2 do.

D-1.

D-2.

Finally, you will get the right images of the TVs (1. & 2.) from picture “E” to picture “F”.
