iCON **USB-C** **HDMI** **4K**

PushGo Taos transforms shared workspaces, classrooms, and creative studios into fully equipped BYOD collaborative environments with a complete all-in-one meeting system. Designed as a “meeting space system in a box,” PushGo Taos combines video, audio, control, switching, and multi-user connectivity into one flexible solution for dynamic collaboration.

Delivered pre-configured and pre-programmed, PushGo Taos arrives ready for same-day installation, so teams can collaborate immediately. Once connected, Taos delivers high-quality 4K video and balanced audio for smooth, productive sessions. Its advanced multi-viewer supports up to eight simultaneous connections via HDMI, USB-C, VGA, or wireless input, allowing multiple users to share screens side by side or spotlight individual content.

From the sleek 10” touchscreen, you can control layouts, sources, display modes, connected devices, and room settings such as lights or shades—all from one intuitive interface.

With PushGo Meet now built in, Taos also brings your daily meeting schedule directly to the touchscreen. Once connected to your Outlook or Google Calendar account, your meetings appear directly on the PushGo touchscreen so you can start sessions with a single tap, stay aligned with real-time updates, and move through your day without interruption.

By combining multi-user connectivity, flexible screen sharing, touchscreen control, and built-in scheduling awareness, PushGo Taos turns any workspace into a hub for intelligent, connected collaboration.

Customization Available: Each PushGo package can be tailored to your specific needs, including hardware options. Contact us for more details on how to customize your system.
