

ULS1000 Certified High Speed HDMI Cable w/Security Lock

The Ultimate Series high-tech HDMI cables feature a patented plug assembly using exclusive ULSTM Secure-Locking Technology that is simple to connect and delivers optimum transmission quality with added security and durability.

Key Features

- High-speed with Ethernet
- HDMI 2.0 for 3D and Ultra HD/4K support
- Innovative ULSTM™ (Ultra Lock System) technology
- High-purity OFC copper wire, 3-fold shielding
- APO Technology (Active Performance Optimizer)
**for 5m, 7.5m, and 10m lengths only*

ULTRA-LOCK SYSTEM

As more and more devices are designed with awkwardly positioned HDMI sockets, any accidental movement or pulling weight of the cable can easily disengage the connector, contributing to partial or even complete signal loss. The Ultra-Lock System (ULSTM™) features a patented locking mechanism that extends and holds the connector in place. The universal 360 ° locking switch is fully compatible with existing HDMI receptacles and allows easy on/off locking positions with color indicators.

THE HDMI ADVANTAGE

The Ultimate Series HDMI cables feature backward and forward compatibility, complying with the latest multimedia standards including HDMI 2.0 and supporting resolutions up to Ultra HD/4K @ 60Hz, as well as full 3D. An integrated Ethernet channel allows 100MBit network transmission for IP-based applications over HDMI, such as home entertainment (TVs, set-top boxes, and game consoles), eliminating the need for additional wiring.

With exclusive, high-tech construction and design features including high purity OFC tinned copper wire, triple shielding, 24 ct. gold plated contacts, and APO Technology (Active Performance Optimizer), the Ultimate Series offers optimum transmission quality with added security and durability.

ULS1000 Certified High Speed HDMI Cable w/Security Lock

Available Lengths

ULS1000-005	Certified High Speed HDMI Cable w/Security Lock – 0.5m (1.6 ft.)
ULS1000-010	Certified High Speed HDMI Cable w/Security Lock – 1m (3.3 ft.)
ULS1000-020	Certified High Speed HDMI Cable w/Security Lock – 2m (6.6 ft.)
ULS1000-030	Certified High Speed HDMI Cable w/Security Lock – 3m (9.8 ft.)
ULS1000-050 (w/ APO™)	Certified High Speed HDMI Cable w/Security Lock – 5m (16.4 ft.)
ULS1000-075 (w/ APO™)	Certified High Speed HDMI Cable w/Security Lock – 7.5m (24.6 ft.)
ULS1000-100 (w/ APO™)	Certified High Speed HDMI Cable w/Security Lock – 10m (32.8 ft.)
