

BALANCEBOX

Height-Adjustable Wall Mount

BALANCEBOX

Height adjustable wall mount for televisions, monitors, and interactive touch screens.

FEATHER LIGHT

Movement is not based on expensive electric motors or confusing counter weight systems. Instead, the BALANCEBOX has a patented spring system that neutralizes gravity for effortless vertical movement. The result is a fast, safe, and easy movement of any LCD or LED screen.

What is BalanceBox?

Balancebox is a mounting system for interactive touch screens and monitors giving 16" of vertical movement.

ALL AGES. ALL HEIGHTS

Users of all ages and heights can easily and comfortably annotate and present with a screen that fits their height.

PATENTED SPRING SYSTEM

The BalanceBox is a patented spring system that neutralizes gravity for effortless vertical movement.

EASY INSTALL

The BalanceBox is easy to install, with simple adjustments to balance the weight of the monitor.

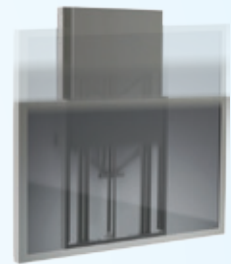

BALANCEBOX Height-Adjustable Wall Mount
